"Church Messages" is the title of a four-page leaflet issued by the Episcopal church in the Southern Pacific Mission—including Globe, Tombstone, Bisbee and Nogales—the first number of which appeared on November 1st. THE OASIS is informed that Reverend J. Gehldof, the rector of the Catholic church at Nogales, Arizona, is completing arrangements by which a convent school will be established at Nogales in the near future. Funds are being raised for erection of a handsome building for which a site has been selected, and the services of a competent corps of sisters have been engaged. Such a school will be of great advantage to Nogales and Father Gehldof should receive every encouragement in the good work.

Thursday THE OASIS job office turned out a very handsome "Business Directory" card of Minas Prietas, La Colorado and Torres. The center of the card presents a handsome engraving of the camp—one-half of the work having an engraving of La Colorado, the other half one of Minas Prietas. Around the engraving is arranged the advertisements of the leading business houses of the three towns—Torres, Prietas and La Colorado. A very handsome half-tone engraving of Guaymas was received yesterday, and a similar card for that city will be turned out next week.

Yuma Sentinel: Some people seem to think that the road to the gulf will not be built until years to come. These, we would advise to go along the line of the proposed road and look at the country to be developed. Then go down the coast of Mexico and see the markets to be opened up. When they have done this we would suggest that they inquire into the concessions granted to the road. Then we'll be ready to record their verdict—"The road will be built."

Saturday evening of last week, pursuant to call from "la junta directiva" (state central committee) of Sonora, a meeting was held at Hermosillo to perfect an organization for the coming presidential election. It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by L. W. Mix & Co., Druggists.

Santa Cruz County.

Mr. and Mrs. Frank Powers of the World's Fair mine, have returned from a visit in Colorado and California.

The new shaft on the Mowry mine, in the Patagonia mountains, is now down 250 feet, and at a further depth of twenty five feet drifting will commence. Lumber is being hauled for a concentrator, for which machinery has been ordered.

At the Hardshell mine, near Harshaw, in the Patagonia mountains, development work continues, and the machinery for the concentrator is patiently awaited. Overcrowded orders at the foundry have delayed its shipment.

Last week Mr. J. C. Smith, superintendent of the Hardshell mine, was called into Tucson by the serious illness of his little boy. He returned to the mine Wednesday of the present week, the little fellow having recovered.

Last week Mr. J. H. Witley, of the firm of Gee & Witley, owners of the Pride of the West mine, was at Washington Camp, and is expected to return again next week to witness the starting of the new concentrator. He was called home to Denver, on business.

Mike Maloney is developing a very promising copper property on the west side of the Patagonias, about six miles east of Rancho Bellotal, on the Santa Cruz. The ledge is between four and six feet wide and the ore taken out runs high in copper. Five men are now at work sinking on the ledge. Several other claims are being worked in the vicinity, and quite a camp is springing up. It is the intention of Mr. Maloney to open a store out there in a short time from now.

The new concentrator at Washington Camp is approaching completion, and it is now expected that it will be ready to start the machinery by the 10th inst. It will reduce about eighty tons of ore daily, and the necessary work of extraction of ore and operation of the machinery will doubtless give employment to a large force of men. When but forty tons of ore were shipped daily about 125 men were employed in the mine. So nearly double that force will be necessary in the mine, beside those necessary in the mill.

Mr. N. K. Chapin is building a new trail from Washington Camp to the Santa Cruz. The cost has been defrayed by contributions taken up in the camp. Mr. Chapin, who was over at Nogales last Saturday, says that they are making a good thoroughfare four feet wide, which at a cost of three hundred dollars in gold can be widened out so a buckboard or light buggy can make the trip across the mountains. The people of Nogales ought to contribute the necessary money and widen out the trail to a road while the work is in hand. The money could be raised along Morley avenue in a very short time.

Dr. H. H. Haden, Summit, Ala., says, "I think Kodol Dyspepsia Cure is a splendid medicine. I prescribe it, and my confidence in it grows with continued use." It digests what you eat and quickly cures dyspepsia and indigestion. L. W. Mix & Co.
